TIPS & TRICKS

- Play music within the app or transfer it onto your computer and into your music collection

1. Go to www.virl.freegalmusic.com or download the Freegal App from your App store.

2. Sign in with your library card and PIN number.

Entering in your email for notifications is optional.

3. Browse and search the Freegal collection.

Browse music by genre, by release date, by popularity, or alphabetically. Videos are browsed using the “Music Videos” tab.

You can also search for specific artists, albums, and songs using the search bar.

Once you find a song, you can preview a sample by selecting the button to the left of the song name.

4. Download songs or videos and enjoy!

Click the download link and save the file on your computer. This will deduct a title from your weekly downloads; the counter (i.e. 1/5) appears at the top of the screen.

You can then import the song into your music collection (i.e. iTunes). (You cannot import from your iPhone or iPad—music will only play within the app).

Your downloaded songs appear in the “My Music” folder, while videos are in the “My Music Videos” folder.
