

Facilities

Purpose

The purpose of this policy is to ensure facilities meet the mission of the Vancouver Island Regional Library (VIRL) Board by maintaining and further developing an integrated network of service points, underpinned by designated resource hub libraries offering and supporting the delivery of in-depth information and readers' advisory services system-wide. Together, these approaches are designed to be responsive to the needs and expectations of VIRL customers. Facilities are designed to best meet the community needs. Ideally, library facilities are flexible, functional, attractive and adaptable.

Development of a Permanent Service Delivery Location

It is the responsibility of the associated political jurisdiction to make a request in writing to the Board to consider the development of a permanent service delivery location. A population threshold of 4,600 is expected to be met in 20 years' time in order for a branch to be considered by the Board. If the Board approves the request, it is the associated political jurisdiction's responsibility to conduct a public consultation process.

Service Delivery Models

To maximize efficiencies and effectiveness VIRL offers a multi-tiered service delivery model. Requests for contracting library services from VIRL will be between the political jurisdiction and the Board of the Vancouver Island Regional Library. Discussions will be undertaken with individual or local interest groups.

Books-by-Mail

Books-by-Mail is an individualized serviced offered to communities of less than 799 people. All requests are handled at the nearest resource hub. The associated political jurisdiction can make a request in writing to the Board to consider the development of a permanent delivery location. A population threshold of 4,600 is expected to be met in 20 years' time in order for a branch to be considered by the Board.

eLibrary

It is the vision of the Vancouver Island Regional Library to become a provincial leader in the integration of technology into library services. Electronic resources and technological access to information and services will not result in the demise of the library as a destination.

Board Policy Facilities

Rather, technology will be expanded and used to enhance customer access place of work, or other locations within the community to library services, whether from within library branches or from home. Using new tools customers and staff will access information resources more effectively and communicate in new and innovative ways. Services offered electronically will be tailored to the individual needs of customers, recognizing the diversity of the community, social and economic barriers faced by all its members.

Core Library

The Core Library is located in a concentrated area of expressed need. The physical size of the Core Library is a target of 2,750 square feet serving a population up to and including 4,600. The service is valued as a focal point of the community identity, a community meeting place and a destination for all. It may be co-located. It provides convenient access to the resources of the entire library system. Core children's services (including programming) and services to targeted groups such as teens or seniors may be stressed. The collection may contain up to 15,000 popular items. Electronic information resources provide access to a broad range of reference and support materials. Access to the Internet will be provided in relation to the population served.

Community Library

The Community Library is a local community focal point and is a gathering place and an intentional destination. It may be co-located. The Community Library is up to 18,000 square feet. The building should support the growth of the community for 20 years. These libraries focus their services on recreational and informational needs, providing access to a full range of print and non-print items. Their collections, based upon demand, support browsing and general information. The base core collection is further developed to support a broader range and scope of information. The Community Library delivers information and reader's advisory services, programming for all targeted groups, outreach, reading lounge, designated study space and multipurpose meeting space are all part of their mandate. Access to the Internet will be provided in relation to the population served.

Resource (Hub) Library

The Resource (Hub) Library underpins the delivery of information and readers' advisory services throughout the Board's service area. Further to that it provides community needs to the local area. It may be co-located.

The Resource Library exceeds 18,000 square feet based on population. The building should support the growth of the community for 20 years. Its extensive collections serve the recreational and informational needs through a mix of circulation and electronic materials.

Board Policy Facilities

Local or special collections may also be developed and housed in hub libraries. The resource hub library has an important role in supporting the print and nonprint infrastructure of the library system through the development and provision of specialized in-depth collections and staff expertise. It provides the full range of services for children and adults, programming, outreach, distribution centre for the hub, and multipurpose meeting space are all part of its mandate.

Standards: Size and Site

Standards are defined as a degree or level of requirement, excellence or attainment that serve as a point of reference. They are a framework for planning and achieving best practices and excellence in the management and provision of library service. At the same time, standards provide a baseline measure for the development of facilities.

VIRL will:

- Establish and maintain libraries according to the service delivery model.
- Locate facilities as best possible utilizing site selection criteria.
- Use a recognized source (PCensus or Stats Canada) to access population and demographic information on which to base needs for new or expanded facilities.
- Implement a minimum target size of 2,750 sq ft or 0.6 sq ft per capita.
- Recognize the difference between urban and rural delivery by:
 - Grandfathering existing sites in their present geographic location until such time as population increases warrant replacement, and that grandfathered branches be maintained with a focus on WCB and health & safety issues subject to funding provided by the additional maintenance levy above, and that priority maintenance be given to the rural branches as identified in the CFMP report.
 - Base rural priorities on a weighted basis (10% population 30% date of most recent move/work, 30% compliance with minimum requirements, 30% physical condition) as outlined in this report.

Consider one or more rural branches and one urban branch per year be considered by the Board for expansion or replacement when requested by the local jurisdiction.

- An additional levy of 1.25% per year for facilities over a 10 year period, and an additional levy of 1% per year for maintenance over a 10 year period, is required to implement this policy.

Policy Approved: June 11, 2011
Revisions Approved: September 15, 2012

Board Policy Facilities

- Implement as opportunities arise the preferred ownership model.
 1. VIRL ownership
 2. Public sector ownership
 3. Private sector ownership

Donation of Property: refer to *Donations and Corporate Sponsorship Policy*

Standards: Hours of Operation

Core Service Model

5 days per week maximum
20 hours minimum to maximum 42 hours
2 consecutive closed days (contractual requirement)
Variety of morning and evening hours
Open hours between 10am - 8pm

Community Service Model

5 - 7 days per week
60 hour maximum
4 evenings per week
Variety of morning and evenings
Open hours between 10am - 8pm
Sunday 12:30 pm - 4 pm if funding available

Hub Service Model

7 days per week
65 hours per week plus
4 evenings per week
Variety of morning and evenings
Open between 10am - 8 pm
Sunday 12:30pm – 4pm

Policy Approved: June 11, 2011
Revisions Approved: September 15, 2012

Standards: Staffing Specifications

Prototype Library Building Program / Minimum 2,750 sq. ft.

	Total Area (SF)	Description / Standard
Collection Space	1,000	15,000 books @ 15bk/sf
Circulation Desk	150	
Public Access Catalogues	40	
User Seating	240	8 seats x 30sf
Children's Area	300	12% of area
Teen Area	100	4% of area
Public Access Computer Space	100	4 users
Work / Storage Room	250	11% of library area
Washrooms	80	1 male 1 female
Circulation	490	19% of net area
Total	2,750	

Board Policy Facilities

Site Selection Criteria

		Site 1	Site 2	Site 3	Site 4	Site 5
Physical Site						
1	Site accommodates facility which meets area standard for catchment area					
2	Central to catchment area					
3	Site is in future growth area					
4	High visibility within community					
5	Close to commercial node / activity					
6	Close to other community facilities					
7	Site restrictions (i.e. flood plane or restrictive covenants)					
8	Library use permitted by existing zoning					
Site Access						
9	Accessible by public transit					
10	Vehicle parking is maximum permitted by zoning					
11	Bicycle parking is provided (as per zoning if applicable)					
12	Access for service and delivery vehicles					
Building						
13	Meets minimum area requirement (for branch size)					
14	Meets building code standards					
15	Barrier free access					
16	Access to telephone, Internet, cable, communication infrastructure					
17	Overall premises / building is in good condition					
18	Available for long term period (20 years)					
19	Affordable					
20	Separate entrance
